**Scranton School District – Environmental Remediation**

The health, safety, and welfare of students and staff is the District's number one priority. The district has been in constant contact with environmental professionals in order to maintain safe schools and resolve the environmental conditions found in our facilities.

As a part of the district's immediate plans to provide a safe environment, the district closed Northeast Intermediate, Frances Willard Elementary, and Robert Morris Elementary on Thursday, January 30, 2020. Representatives from both Guzek Associates and Datom Products, Inc. are on-site at these locations assessing the situation.

Additionally, Prescott Elementary will be closed on Friday, January 31, 2020, due to the remediation and removal of a pipe fitting that was in an encapsulated area of the school.

Air quality tests will be done in each building prior to their reopening; we will keep these buildings closed until all are deemed safe for students and staff.
