There is a delay in recordings being requested from Denaples. Bert questioned who would be the best contact to ensure expedience.

Carl Pugliese gave an update on the asbestos testing. There are two areas with asbestos. The first, a West High bathroom, which is not used. TSI material Datum removed. Air quality was good. The second, was a tile with non friable material.

He shared water testing of 186 faucets; only 5 came back with lead. Carl cited these results are due to the filters and replacements of piping. The 5 faucets are from closets and bathrooms which are non consumption sites.

Both Carl Pugliese and Robert Rucker noted that their numbers are available and that if there are any questions or issues in buildings not to hesitate to contact them.

We need members to sign up to do Building Inspections. Bert reviewed all the areas and sent out the forms with the sign up sheet.
